

Invitation to participate in a survey for a research project about improving hospital discharge for carers and older adults

Carers NT and Monash University are seeking at least 30 carers of older adults living in the community to take part in a survey for a research project. The research project aims to identify carers' experiences and needs in supporting older adults who are discharged from hospital to home. The survey is available online or in hardcopy format. It and it will take about 25 minutes to complete. To take part, carers will:

- Be supporting an older adult living in the community with chronic health difficulties, and
- Have experience with discharge from hospital to home following admission for a physical health problem of the older adult that they support at any time after 1st January 2020

All carers are very welcome including those from diverse cultural backgrounds, diverse sexual orientation, and diverse locations such as rural and regional areas.
